The circus artists of cia. VENDAVAL share their passion for stilts with young people and adults. We bring stilts workshops to festivals, schools, civic centres and events.

Stilts are individual stages that lift each person up. Together, the participants become a moving set of performers who can wander to any corner of the venue. Almost anything you can do on the ground, you can do on stilts: dance, sing, play an instrument, play the fool, even easy acrobatics.

Up on stilts, a street or square becomes a meeting place: people greet each other, play and dance together, and the venue fills with colour.

# STILTS WORKSHOP FOR YOUTH AND ADULTS

## SYNOPSIS

Learn to walk and dance with longer legs and free hands! First we become independent on stilts. Then we explore group movement, tricks and characters, and create a short presentation for the public.

All of this happens in a relaxed, trusting atmosphere where safety and mutual support come first. We help each other so that everyone learns something new and leaves behind the fear of heights, of falling or of performing in public.

## WHAT WILL WE LEARN?

- Putting on stilts safely, balance, falling and standing up again
- Walking, turning, dancing and moving to live music
- Group movement and choreography
- Simple tricks and games
- Building a character
- Creating and performing a short presentation for the public

- **Duration**: 2 hours
- **Instructors**: tyle fernández, with Vic Heredero or Albert Pérez
